

Brand: Ranger

Model: RS-500

Description: Professional Spray Wash Cabinet with Skimmer

Clean It Better with Ranger

This powerfully versatile, 50-gallon capacity spray wash cabinet degreases even your filthiest car parts in no time flat. Comes with a free bucket of soap. An increased cabinet size and larger solution tank makes the RS-500 more versatile and productive. By using an octagonal full-opening door, we've increased access to the turntable to enhance the operator's loading capabilities. Simple operating controls, stainless-steel nozzles, a gasket-free door and a large 70-gpm pump demonstrates Ranger's commitment to enhanced performance and productivity without a single sacrifice in quality. Like all Ranger spray wash cabinets, the RS-500 is built to last. We purposely constructed the cabinet and door with heavy-duty 12-gauge steel and then coated it with an industrial two-step primer and polyurethane finish. All-around performance, durability and improved operator convenience make the RS-500 the definitive choice among professionals worldwide.

Features

- Removable tank screen
- Stainless oil skimmer
- Removable parts tree
- Stainless-steel nozzles
- Full opening octagonal door
- Large drain pipe
- Heavy-duty rubber casters
- Friction-drive turntable system
- Gasket-free door
