

JACKPAK®

PS600W

- LCD Display
- Water-Resistant
- Charge Port
- LED Lamp Button

PORTABLE POWER STATION

This versatile Power Station is perfect for long trips. It can be used to charge a wide range of devices charged like phones, tablets, lamps, drones, and more. Pair it with an SP100W to get hours of uninterrupted operation.

PB960

- Pass Through Charging
- LED Display
- 2 USB Ports
- Cigar Lighter Socket

PORTABLE POWER BANK

Charge multiple devices at once with this high-capacity power bank! The PB960 is perfect for your next camping trip! It features an IP64 rating and sports 2 USB ports. The Wireless Charging Area keeps newer devices taken care of.

SP100W

- Flexible and Foldable
- Compatible with Most Power Stations
- Built-in Kickstand
- Layered Design

PORTABLE SOLAR PANEL CHARGER

The SP100W is a solar panel charger which has a sleek design, is portable and foldable, and can go with you anywhere. The 5-layered design provides protection, and the monocrystalline cells deliver power even in low solar intensive areas!

RL400

- Four Power Supply Modes
- Rechargeable Battery Pack
- Weather Alert
- AUX Music Player

MULTI-FUNCTION HAND CRANK EMERGENCY RADIO

The RL400 is an AM/FM radio, weather alert, flashlight, SOS alarm, and music player; all in one device. It can even charge your phone. There are 4 ways to charge the RL400, with two eco-friendly options: the hand crank dynamo and solar panels!

PB20KS

- Two USB Ports
- Wireless Charging
- Water Resistant
- Over-Charge Protection

SOLAR POWER BANK

A pocket size multiple solar panel charger for your handheld devices. Keep your mobile devices going when outdoors. You can use a USB to connect through Micro-USB or the Type-C connector which is found under the rubber end cover.
