Advanced 3DPro™ Imaging Wheel Aligner System

The Target 3DPro™ [wheel aligner](#) increases productivity by allowing technicians to do more wheel alignments in less time compared to conventional systems. This wheel aligner is perfect for wheel service repair shops handling a high volume of wheel alignments, especially those who would like to see a dramatic increase in profitability. With minimal investment and reduced training, the Ranger Target 3DPro aligner expands your service potential and sends more profit to your bottom line. The ProSpec® feedback that assists technicians in diagnosing problems will help increase your customer satisfaction and improve shop efficiency. The Target 3DPro uses advanced imaging technology that delivers fast and accurate alignments.
