Keep Your Air Compressor From Vibrating Itself into Disrepair

Set your BendPak [air compressor](#) on top of these thick, anti-vibration pads. Made from a high-quality elastomer compound, the anti-vibration pads easily resist aging, compression set, water and oil. It's a perfect low-cost solution that will save your compressor from needless wear and tear.

Features

- Set of 4
- Made from high-quality elastomer compound
- Tread greatly reduces the chance slippage
- Resists aging, compression set, water and oil
