

FOR THE HOME WRENCHER

The GP-7LC is an incredibly powerful, 7,000-lb. capacity two-post lift that reaches a max lifting height of 68". Never before has a garage with ceilings as low as 10' been able to fit a lift of this caliber. Only the GrandPrix offers the superior safety standards of a full-rise lift in a slim, low-ceiling build. Home wrenchers have long lamented the lack of a lifting option for their garages, so they wind up settling for less premium options or low-rise options, or else they make sacrifices in the capabilities and safety features of their lift. GrandPrix's GP-7LC truly upends everything you thought you knew about automotive repair. This machine fits in most home garages and comes along with the best warranty in the industry. If you've been holding off because of space, this might just be the lift for you've been looking for.

FEATURES

- Single hidden overhead cylinder
- Low-Pro™ arms for sports cars
- Taller lift carriages
- Automatic safety locks
- Redundant safety cables
- Multiple lock positions
- 5-Year Warranty
