

Is MaxJax Safe?

Many people question the safety of MaxJax by just looking at it from pictures, but what those armchair engineers don't know is that MaxJax is equipped with special flush-mounted anchor bolt receivers that remain hidden in your concrete floor, each rated at 16,500-lbs each. That's over 160,000-lbs of holding power!

How does the MaxJax work?

For convenience, portability and compact storage, nothing beats the patented MaxJax™ portable car lift. Thanks to its unique portable two-post design, the MaxJax offers greater versatility and serviceability when compared to traditional mid-rise or low-rise garage lifting systems.

1. Roll It

2. Work It

3. Stow It

MAXJAX®

LOW CEILINGS? NO PROBLEM!

INTRODUCING THE ONLY TWO-POST CAR LIFT THAT IS *PORTABLE AND STOWABLE*

QUICK & EASY STORAGE
