Our Card System Contains Over 3,500 Cards on One CD

Our exhaustive BendData card system guides you step-by-step when fabricating original equipment exhaust and tailpipes. Coverage encompasses domestic and light trucks as far back as 1965. Comes with fully-illustrated reference catalog and a rotation dial for standard or mirror image bending. Annual updates available.

Please note that the CS-1 Card System does not ship with the [pipe benders](#) and must be purchased separately.

Features

- Over 3,500 cards on one CD
- 10,000 bending applications
- Supports exhaust systems going back as far as 1965
- Fully-illustrated reference catalog
- Rotation dial for standard and "mirror image" bending
