Brand: QuickJack™
Model: BL-3500SLX
Description: Car Jack Support System

Less labor and more love. The QuickJack BL-3500SLX light-weight portable car lifting system will change everything about how you maintain your vehicles. Say goodbye to ramps and flimsy jacks--with the QuickJack BL-3500SLX, you can get your vehicle in the air in literally seconds.

The BL-3500SLX has a maximum lifting capacity of 3,500-lb. But its true strength is that you can take it with you. The QuickJack is so light-weight and space-efficient that you can transport it in your regular sized trunk or backseat. It also takes seconds to get up and running following initial one-time assembly. Just drop it on the ground and hook-up the power. As soon as the jack frames and rubber blocks are in place under your vehicle, it'll be at a work-ready height in no time at all. It’s really that easy. At a super-low profile of three inches, the QuickJack garage lift fits where other jacks only dream. And because there aren’t any cross members to worry about with this portable garage lift, you can tailor the platform spacing perfectly to nearly any vehicle.

Complete package includes: (2) ea. jack frame assemblies, (2) ea. 150" hydraulic hoses, (2) ea. 14" aux. hoses, (2) ea. quick-mount handles, (4) ea. 1.5" x 3" x 4" rubber lifting blocks, (4) ea. 3" x 3" x 4" rubber lifting blocks, (1) mini hydraulic power unit with pendant control.

A long list of design features...

- 3,500-pound capacity.
- From stow to go in less than 60-seconds.
- Dual-position safety locks engage automatically as the lift rises
- Dual locking positions – mid level and full rise
- Extended, cantilevered rubber block trays provide increased rubber block reach
- Portable power unit features a remote push-button control for simple operation.
- Steel mounted UHMW wheels provide effortless rolling of jack frames on floor.
- Remote pendant control features a 13-foot cord.
- Power unit features a built-in hydraulic flow divider for precise equalized lifting.
- Open-center design for clear undercar access.
- Quick-connect/disconnect hoses for fast and convenient set-up.
- Convenient handles allow for easy positioning of the jack frames.
- Strong 14-gauge welded steel frames.
- It’s a jack you can use when you need it then conveniently store out of the way.
- Provides quick wheels-free convenience for brake and tire service and clear undercarriage access of all types of vehicles.
- Low-profile jack frames fit under most race cars.
- Powerful hydraulic cylinders eliminate the need for screw mechanisms.
- Integrated power-assist canisters increase the lowering speed.
- Hydraulic cylinders feature integrated velocity-fuse safety valves.
- A convenient metal carrier with handle keeps the power unit easily mobile.
- Includes an eight piece set of adjustable and stackable rubber lift blocks to support cars at precise locations for increased stability and safety.
- Detailed installation, maintenance and safety instructions accompany each system.

All Models Feature a Remote Pendant Control

Every QuickJack model comes standard with a 2-button pendant control is built using high-impact, highly visible plastic and comes standard with a 13’ cord.
