The RBJ4500 Rolling Bridge Jack is the DIY'ers Dream Product

Ideal for any shop with the HD-9, arguably our most popular and versatile car lift. The HD-9 is the lift that many garages prefer because its optional caster kit allows operators to move it anywhere in their shop. Its compact size and reputation for safety mean this is one of the most popular car lifts ever made. Anyone interested in a four-post lift for wheel service should consider the HD-9 complete with a pair of RBJ4500 [rolling bridge jacks](#).

Bridge Jack Series
