The 20-Gallon RD-20SE Air-Evacuation Oil Drain

Ranger [oil drains](#) are by far the best solution to the common problem of waste fluids. The lightweight 20-gallon RD-20SE comes loaded with exclusive features, like a tamper-proof air regulator and quick-release "lift-lock" drain. A generously wide base design ensures proper balance, whether the unit is in use or rolling around the garage on its heavy-duty 3" ball bearing casters. The RD-20SE is constructed of heavy-duty steel for exceptional strength durability, and a handy translucent evacuation tube on the side means you never have to wonder about fluid level. All Ranger oil drains are incredibly resistant to rust, dents, and corrosive chemicals.

Features

- Lightweight for easy portability
- Durable steel construction
- Safe and easy to use
- Tamperproof air regulator
- Preset safety pressure valve
- Translucent sight tube on side for easy view of fluid levels
- Quick-release "lift-lock" drain tube
- 10' translucent evacuation hose with drip-less quick coupler included
- Convenient pull handle on top of unit
- Wide base for stability
- Tough construction will resist dents, rust and corrosion
- Non-corrosive telescoping tube
- Heavy-duty 3" ball bearing casters with locks
- Rugged funnel included
