INSTALLATION AND OPERATION MANUAL

20 Ton Heavy Duty Hydraulic Shop Press

Model:
RP-20HD
VER B

SHIPPING DAMAGE CLAIMS
When this equipment is shipped, title passes to the purchaser upon receipt from the carrier. Consequently, claims for the material damaged in shipment must be made by the purchaser against the transportation company at the time shipment is received.

BE SAFE
Ranger™ Shop Presses are designed and built with safety in mind. However, proper training and thoughtful operation on the part of the operator can increase your overall safety. DO NOT operate or repair this equipment without reading this manual and the important safety instructions shown inside.

WARRANTY POLICY

Ranger Products™ are backed by over 35 years of manufacturing experience. Every Shop Press bearing the Ranger™ name is sold with the following warranty.

- Each Ranger Product™ is warranted to be free from defects in workmanship and material for a period of one year from the date of shipment provided that a written claim for such defect is made within that time.

- This warranty does not cover damage or defects caused by carelessness of the operator, misuse, abuse or abnormal use which in any way impairs the proper functioning of the equipment or by the use or addition of parts not manufactured by Ranger Products™ or its suppliers.

THIS WARRANTY IS EXPRESSLY MADE IN LIEU OF ANY AND ALL OTHER WARRANTIES EXPRESSED OR IMPLIED INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

If your Ranger Products™ machine is not functioning properly, call your Ranger Products™ dealer immediately. On some occasions, an independent contractor may be hired to do the repairs. Within the warranty period, a customer should not hire his own contractor unless it is authorized in writing by Ranger Products™.

If it is necessary to return equipment for repairs, your dealer will so advise you. When returning equipment for repairs, see that machines are properly crated and protected, and prepay transportation.

Defective parts replaced at no charge must be returned to your dealer or Ranger Products™ within 60 days of the date that the replacement parts are shipped; otherwise, you must pay for the replacement parts at the current selling price.

SHIPPING DAMAGE

If any damage is found, notify your carrier immediately and save all packaging materials for the carrier’s inspector to examine. Failure to promptly report damage could result in denial of your claim.

A trucking company’s procedure for handling damage is as follows:

1. Immediately send out an inspector. An inspection report is filled out on the spot, a copy of which is given to the customer.

2. The customer has to call the carrier to request a claim form.

3. The customer mails in the claim form.

4. The claim usually takes two (2) months to process.

If a unit is seriously damaged, your Ranger Products dealer may be able to intervene, requesting that the damaged unit be returned and a new unit delivered.

IMPORTANT SAFETY TIPS

ALWAYS MAINTAIN A CLEAN WORK AREA.
KEEP VISITORS AND ESPECIALLY CHILDREN AWAY FROM WORK AREA.

THIS SHOP PRESS IS TO BE OPERATED BY PROPERLY TRAINED PERSONNEL ONLY. OPERATION BY UNTRAINED PERSONNEL MAY RESULT IN INJURY AND /OR PROPERTY DAMAGE.

WARNING

THIS OPERATING MANUAL CONTAINS IMPORTANT DETAILS CONCERNING THE SAFE OPERATION OF THIS EQUIPMENT. THE USER MUST READ AND UNDERSTAND THESE DETAILS BEFORE ANY USE OF THE EQUIPMENT. THIS MANUAL MUST BE RETAINED FOR FUTURE REFERENCE.

OWNER/OPERATOR RESPONSIBILITY:

The owner and/or operator shall study the product instructions and retain them for future reference.

The owner and/or operator shall have an understanding of the product operating instructions and warnings before operating the equipment.

Warning information shall be emphasized and understood. If the operator is not fluent in English, the product instructions and warnings shall be read to and discussed with the operator in the operator’s native language by the purchaser/owner or his designee, making sure that the operator comprehends its contents.

INSPECTION

CAUTION

Visual inspection should be made before each use of the equipment. This inspection should check for abnormal conditions such as cracked welds, leaks, and damaged, loose or missing parts.

Any product that appears to be damaged in any way, is found to be worn or operated abnormally, must be removed from service immediately.

Any product that operates abnormally shall be removed from service until repaired by a qualified repair service center.

If the product is accidentally subjected to an abnormal load or shock, it must be taken out of service immediately and be inspected by a qualified repair or service center.

It is recommended that an annual inspection is performed on the equipment and that any damaged or worn parts, decals or warning labels be replaced with manufacturer’s specified parts.

ALTERATIONS

WARNING

Because of potential hazards associated with this type of equipment, no alterations shall be made to the product.

WARNING

THIS IS A PRESSING DEVICE ONLY. DO NOT EXCEED RATED CAPACITY.

OVERLOADING CAN CAUSE DAMAGE TO OR FAILURE OF THE SHOP PRESS.

KEEP HANDS AND BODY CLEAR OF ALL PINCH POINTS.

NO ALTERATIONS TO THE PRESS SHALL BE MADE.

READ, STUDY AND UNDERSTAND THE OPERATING MANUAL PACKED WITH THIS SHOP PRESS BEFORE OPERATING.

ALWAYS WEAR APPROVED EYE PROTECTION DURING OPERATION.

FAILURE TO HEED THESE WARNINGS MAY RESULT IN LOSS OF LOAD, DAMAGE TO THE PRESS, AND/OR FAILURE RESULTING IN PROPERTY DAMAGE, PERSONAL OR FATAL INJURY.
ASSEMBLY INSTRUCTIONS
RP-20HD

Refer to the Parts Breakdown on Page 5.

1. Attach legs (2) to the bottom of the Posts (6) while also attaching the Leg Center (1) between the two frame posts. Secure the three steel items with bolts (3) and Hex Nuts (5), and Flat Washers (4).

2. Place the Table (8) between the frame posts by sliding it down from the top and secure it with the Support Pins (7). Align the base straight.

3. Attach the Top Beam (9) to the top of the frame posts using Hex Bolts (10), Spring Washers (12) and Hex Nuts (11). Ensure the Hydraulic Jack Centering Ring is facing downwards.

4. Attach the Ram Frame (21) to the underside of the Top Beam (9) sliding the top of the Ram Assembly (25) into the bracket before tightening down the bolts, nut and lock washers. (See Figure 1)

5. Attach the Pump Assembly (16) to the side of the right side Post using the supplied bolts, nuts and lock washers. (See Figure 2)

6. Place the Press Plates (13) on the Table if desired.

7. Your 20 ton shop press, model RP-20HD is now ready for operation.

OPERATING INSTRUCTIONS

DANGER
If you detect any structural failure, stop using the press immediately and get a qualified technician to inspect it.

CAUTION
Keep hands, fingers or feet and all parts of the body away from any moving parts.

1. Position the Press Table at the desired height by adjusting the Support Rods.

2. Place the two Steel Plates on the Press Platform.

3. Using the Jack Handle close the release valve of the jack by turning it clockwise.

4. Place the Jack Handle in the Jack Handle Socket and pump the jack, pushing the Jack Plate down.

5. When finished, loosen the Jack Release Valve using the Jack Handle and turning it counterclockwise.

MAINTENANCE

1. Keep the press clean and free of debris and dirt.

2. All exposed machine surfaces of the press should be brushed clean and wiped with WD-40 or equivalent.

3. Check the oil, if the pump doesn’t work or if the cylinder doesn’t build pressure when activating the pump, if fluid is needed place pump horizontally. Remove cap from the center of the pump reservoir and fill with oil until full. (Use Dexron III, Dexron VI, Mercon V, Mercon LV or comparable.) (See Figure 3)
