## Easier Manual Tire Changer for any Home Garage or Shop

An incredibly efficient tire changing system, the RWS-3TC is an absolute necessity for any tire shop. Ideal for professional use or at home in the garage, the manual tire changer performs both mounting and bead breaking procedures at a fraction of the normal cost. Heavy steel construction combined with portability and easy operation makes the Ranger manual tire changer the in-class leader and service professional's first choice.

"Manual" doesn't mean difficult. The bead breaking system on this tool is effective on smaller tire sizes (up to light truck), and mounting is made easy for ergonomic convenience. Take this tire changer with you anywhere: on the road, to your buddy's, to and from the shop, etc. With the time and money you save, you'll be glad you went with this timeless piece of shop equipment.

## Features

- A must for tire shops
- Efficient operation at a fraction of the cost
- Perfect for home or shop use
- Performs both mounting and bead breaking operations
