Tire Iron for Simple, Determined Bead Breaking

Tire technicians should have every tool at their disposal in order to get the most out of their [tire changers](#). A good tire iron is an essential addition to your wheel service accessories, and Ranger provides storage space in the tire changer itself to hold your tire irons. Sometimes stubborn beads need a little elbow grease during mounting and demounting, so it never hurts to have this rugged tire iron in your shop.

Features

- Standard tubeless tire iron
- Cold-forged steel
- Sold individually
- May be used on changers
- Bead breaker
