- 8x BHCS M3 x 8mm 150-0061
Step 5. Connect Electronics

Step 6. Install Battery and Battery Cover

Step 7. Install Lower Battery Cover

Step 8. Assembly Complete

Your RC4WD 1/10 BendPak XPR-9S Two-Post Lift is now ready to use.
- To operate, simply press the On/Off switch then hold the Up or Down arrow to raise or lower the lift arms.
- Each post incorporates kill switches on the top and bottom to prevent damaging the lift mechanism.
- If the lift arms are not on the same level simply lower the arms to the bottom to re-align.
- Be sure to turn the lift off when not in use to prevent damaging the batteries.

WARNING: Keep fingers clear of moving parts. May cause injury. Do not leave children unattended with this product!
