## Cooling Solutions for at Home and at the Warehouse

The CB-26 is the latest addition to our COOLBREEZE lineup. This portable air cooler is more than up to the task of providing cool, refreshing air. All you need to get started is an everyday source of power, some water, and the natural process of evaporation.

The CB-26 is extremely versatile and provides serious cooling solutions both at home and at the warehouse. Like the rest of the Cool Boss family, the CB-26 comes sporting Cool Boss patented Honeycool™ Evaporative Media pads which soaks up water like a sponge. Then, when hot air comes into contact with our media pads, it naturally cools down the air through evaporation.

The CB-26 comes with durable easy-roll locking swivel casters so you're able to effortlessly transport your Cool Boss wherever you need it the most. Combine that with its compact design, and you get an AC alternative that goes from stow to go in moments. The CB-26 features 26" Blue Flex™ axial flow fan blades which pumps out 7,115 CFM and pulls a high volume of air at low RPMs. It will alter its shape slightly at higher RPMs. It's hardly noticeable, but it results in reduced engine drag and increased energy efficiency. That means that your low energy bill just got lower. Can't beat that, right?

By utilizing the automatic swing louvers, you're able to precisely direct cold air where you want it. The CB-26 joins the rest of the Cool Boss lineup in providing a cost-effective solution to traditional AC. Easy set-up, simple controls, and powerful gusts of cool air make Cool Boss the perfect addition to any outdoor setting. Cool Boss is the ideal space-saving, money-saving, and air-cooling solution out there.

## Features

- Oscillating auto-swing louvers
- Protective cover comes standard
- Automatic water source shutoff
- Honeycool™ evaporative media
- Blue Flex™ axial-flow fan
- Water inlet flow control
- Durable swivel casters
- User-friendly controls
- Antibacterial housing
- Space-saving design
- 50-gallon reservoir
- UL® certified
- 10-speed fan
- GFCI plug

## Specifications

<b>Fan Diameter</b>	26" / 660 mm
<b>Fan Speed</b>	10-Speeds
<b>Max. Airflow</b>	7,115 CFM
<b>Louver Style</b>	Automatic Swing Louvers
<b>Water Consumption</b>	1 - 1.6 Gal / Hr
<b>Water Capacity</b>	50 Gal (185 L)
<b>Dimensions</b>	43" W x 27" D x 66" H (1,092 mm x 686 mm x 1,676 mm)
<b>Weight</b>	209 lbs. (95 kg) - 626 lbs. (284 kg)
<b>Media Dimensions (ea)</b>	39" H x 14" W x 6" D (991 mm x 356 mm x 152 mm)
<b>Effective Cooling Area</b>	3,055 sq. ft.
<b>Casing Construction</b>	ABS Plastic
<b>Power Cord Length (ft)</b>	15'
<b>Noise</b>	73 -97 dB
<b>Power Supply</b>	110V/60 Hz (Optional 208-230V)*

\*Optional voltage available upon request.
