Tour-LX

DESIGNED for
GOLF CARTS

4-IN-1

GOLF CART
COMPANION

- PORTABLE AIR COOLER
- 25-QUART ICE CHEST
- BLUETOOTH SPEAKERS
- PORTABLE POWER BANK

Real Cooling. Real Power. Wherever the Game Takes You.

The Coolee Tour LX isn't just a cooler with fans—it's a fully portable micro air-conditioning system built for your golf cart. Using a high-efficiency pump, dual centrifugal blowers, and a compact radiator, it delivers true A/C that blasts air up to 35°F cooler than outside temperatures.

Each fan operates independently with two speeds, so both driver and rider can set their own comfort level—from a light breeze to max cooling. The result: personalized climate control that keeps you focused on the game instead of the heat.

Beyond comfort, the Tour LX helps golfers conserve energy, sharpen concentration, and play longer—even in hot, humid conditions. For those sensitive to heat, it opens the door to year-round golf. For courses and resorts, it means happier guests and more rounds played on hot days.

With added perks like ice storage, premium audio, and whisper-quiet operation, the Tour LX sets a new benchmark in luxury, aftermarket upgrades for today's carts.

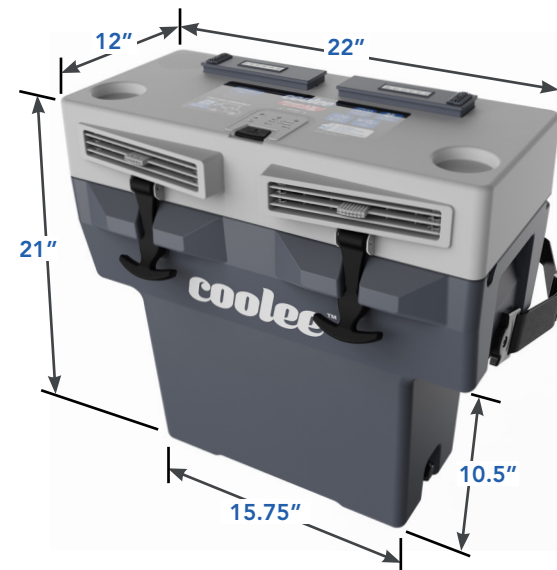

ICE CHEST WITH THERMAL INSULATION

HOLDS
UP TO 20
12oz CANS

SPECIFICATIONS

- Cooling Type: Recirculating micro A/C system
- Cooling Output Up to 35°F below ambient temperature
- Air Delivery Dual centrifugal blower fans (2-speed each)
- Power Source Dual 10,000 mAh Li-ion batteries
- Charging Methods: 12V DC, 110V AC
- Control Interface Touch panel with LED indicators
- Speaker System: Bluetooth 5.0, weather-resistant
- Power Bank Output: USB-A, 10,000 mAh
- Ice Chest Volume: ~20–25 quarts (approx. 20 cans)
- Interior Dim. (Tier 2): 5" (H) x 19.75" (W) x 7.5" (D)
- Exterior Dim. (Overall): 21" (H) x 22" (W) x 12" (D)
- Exterior Dim. (Taper Base): 10.5" (H) x 15.75" (W) x 8.5" (D)
- Unit Weight (Dry) Approx. 20 lbs. (with batteries)

Stay Cool All 18 Holes

Rechargeable
Batteries

10+ hours of
continuous use

INCLUDED

- 10,000 mAh Battery Packs (2)
- 12VDC Power Cord
- Battery Charger Docking Station
- USB-A to USB-C Adapter
- 110VAC & 12VDC Power Adapter

PREMIUM FEATURES

RECHARGABLE BATTERIES

EASY-TO-USE CONTROLS

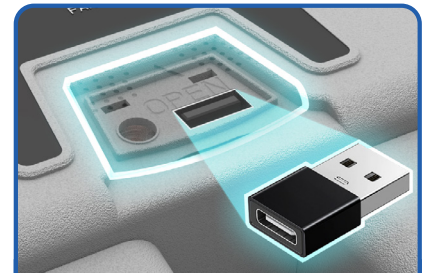

WATER-RESISTANT SPEAKERS

DIRECTIONAL VENTS

ADJUSTABLE SHOULDER STRAP

USB-A & C OUTPUT POWER BANK

- **Compact Footprint**
Designed to fit securely into most golf cart baskets.
- **True Air Conditioning**
Recirculating water-cooled system powered by a micro water pump, dual high-airflow centrifugal blower fans, and copper-finned heat exchanger.
- **Personal Airflow and Comfort**
Dual independently operated fans with two speed settings.
- **Directional Automotive-Style Vents**
Sleek, front-facing air vents with adjustable diffusers for focused airflow.
- **Dual High-Efficiency Fans**
Twin centrifugal blowers deliver consistent air pressure and optimal circulation.
- **Ample Ice & Beverage Storage**
Large capacity with heavy-duty thermal insulation.
- **Premium Bluetooth[®] Stereo Speakers**
Water-resistant, full-range audio with Bluetooth 5.0 wireless streaming.

- **High-Capacity Power Bank**
USB-A & C output provides on-the-go power for phones or accessories.
- **Dual Rechargeable Lithium Batteries**
(2x) 10,000 mAh Li-ion fast-charging battery packs.
- **Touch Panel Controls**
Simple, intuitive interface with soft-touch buttons and LED status lights.
- **Sturdy & Mobile**
Detachable padded shoulder strap and molded side handles for easy handling.
- **Pump Cover Shield**
Protects the internal water pump from debris or impact.
- **Low-Noise Operation**
Whisper-quiet impeller pump and optimized fan blades.
- **Includes:** (1) Shoulder Strap, (2) 10,000 mAh Battery Packs, (1) Battery Docking Charge Station, (1) 12VDC Power Cord, (1) 110VAC to 12VDC Power Adapter.
