

BendPak Technical Service Bulletin

Cool Boss Water Hose Gasket Installation

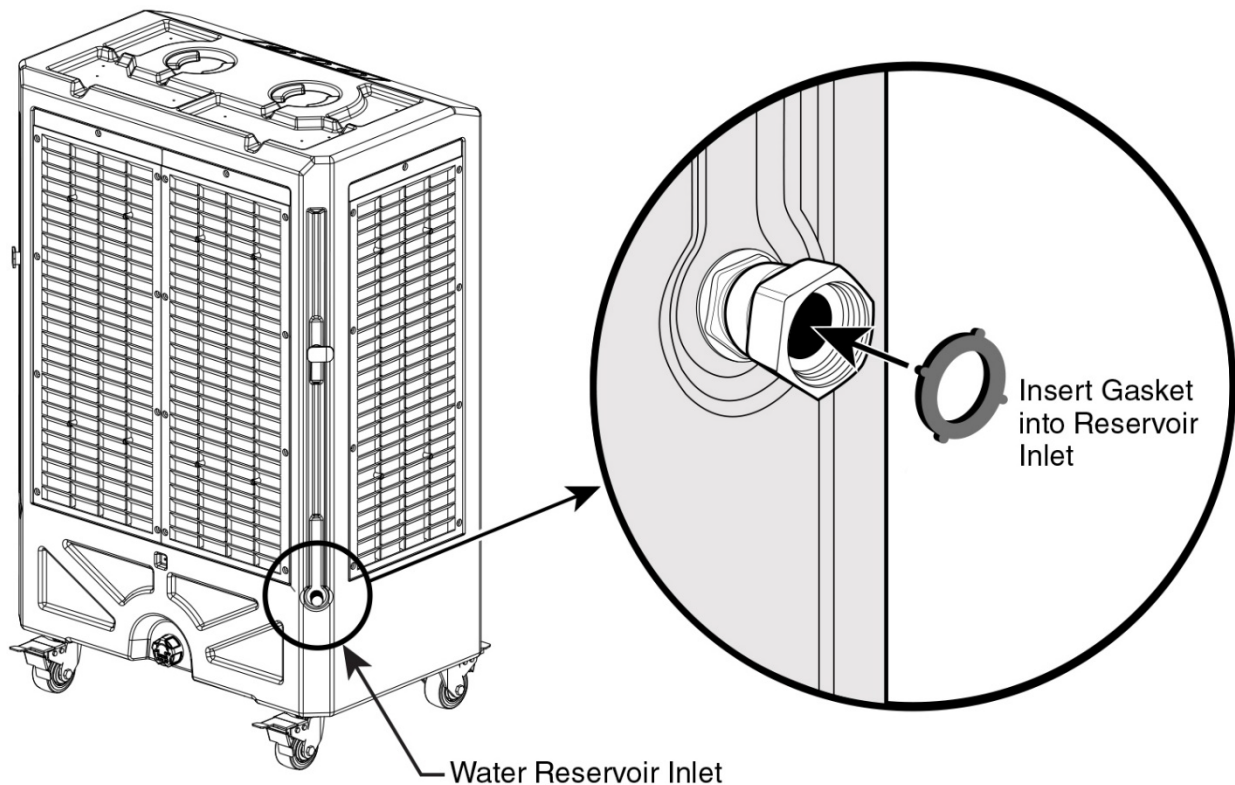

BendPak TSB 172-062025

This Technical Service Bulletin describes the installation of a Water Hose Gasket on the Cool Boss CB-19SL Evaporative Air Cooler.

The Water Hose Gasket is used to seal the fitting between the Water Reservoir Inlet and a standard 3/4 in. Garden Hose, when used to fill the Cool Boss CB-19SL.

To Install Water Hose Gasket

- Locate the Water Reservoir Inlet on the corner of the Cooler, as shown in the illustration below.
- Insert the Gasket by pressing it into the Inlet, ensuring that it is fully seated in the recess.

If you experience difficulties with your Cool Boss, technical support and service is available from your dealer, on the Web at coolboss.com/support, by email at support@coolboss.com, or by phone at **(833) 522-5725** (follow the prompts to reach service). Online chat is also available at www.coolboss.com
